

ULTRA I&C

MicroCrypto

FOR RADIO MANUFACTURERS AND SYSTEM INTEGRATORS

The MicroCrypto advantage

FOR RADIO MANUFACTURERS AND SYSTEM INTEGRATORS

A Low Size, Weight, Power and Cost (SWaP-C), losable, hardware-based, software-enabled quantum-secure crypto solution.

Range Enhancing

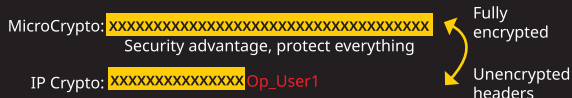

Go further with MicroCrypto for the same power—MicroCrypto's data link "Range Advantage."

Endurance

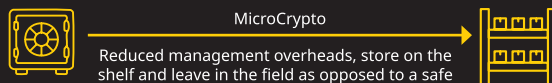

For the same energy, get longer operations with MicroCrypto's "Endurance advantage"

Anti-Track

Protect all your information; don't expose header information that can be exploited. Benefit from MicroCrypto's "Anti-Track Advantage."

Simplified

Reducing the management burden compared to high-grade solutions with simplified deployments.

Integrable

Designed to integrate easily with existing systems to improve development efficiency.
